Relevant experiences

Researches at the University of Lugano

- UWA [2001-2003]: methodologies and tools designing ubiquitous web applications
- VNET5 [2001-2003]: user-centred product creation in electronic publishing
- DELOS [2004-2007]: a network of excellence on digital libraries
- WED [2004-2006]: "web as dialogue", dialogic hypermedia design

Researches in collaboration with Politecnico di Milano

- Opendrama [2002-2004]: a multichannel application for the digital heritage of opera in the open network environment
- Medina [2003-2005]: an integrated web portal for the Mediterranean cultural heritage
- EPOCH [2004-2007]: a network of excellence on technologies for cultural heritage

Studies

Ongoing studies

Ph.D. at the Università della Svizzera italiana: "*TRAMA: Traceability Analysis Model for Web Application*", with Prof. Paolo Paolini and Prof. Marco Colombetti (from January 2002).

December 2001

Graduation Summa cum Laude in Communication Sciences, specialisation in Communication Technologies at the Università della Svizzera Italiana (USI).
Thesis: "Modelli di utente nel customised document delivery: un approccio"

rivolto al semantic Web" [User models in the customised document delivery on the Web: a Semantic Web approach], with Prof. Marco Colombetti.

September-December 2000

Semester at the University of Toronto (CA) for bibliographic researches in the field of user modelling with Prof. Marcel Danesi and Prof. Donato Santeramo.

October 1994-June 1997

Undergraduate at the University of Fribourg (CH), faculty of Literature (Latin literature, Italian literature and Journalism), six semesters

July 1994

Swiss Maturità Federale¹ type A (classica), Liceo Cantonale di Mendrisio, Switzerland.

Other experiences

USI - University of Lugano

From: January 2002

Title: Responsible of the University web service

Responsibilities: design and implementation of the university web sites with the ObTree

TELOS Internet Solutions

From : January 2002

Title: Web designer

Responsibilities: Design and implementation of Web sites

DEERIVE

From: April 2002

Title: DB designer

Responsibilities: Design and interface databases in Web architectures

¹ The Maturità Federale is a school leaving certificate awarded after five years of 'Liceo'. The type 'A' is a classical specialisation that includes the study of Latin, Greek, History, Philosophy and Literature but also elements of Mathematics, Physics, Chemistry, Biology and Computer Science.

Research interests

- Goals traceability
- Requirements analysis
- Usability evaluation
- Web and hypermedia design
- Semantic Web
- Intelligent search engines
- Artificial Intelligence and Knowledge representation
- Adaptive interfaces
